📍 London, England

SUMMARY

Software Engineer with 1+ year of experience in delivering scalable and efficient software solutions. Proven track record of contributing to large applications with a focus on cloud technologies and automation. AWS Certified Developer, eager to apply cloud expertise and technical skills within a dynamic development team..

WORK EXPERIENCE

Front End Developer Intern

`</>` Python Javascript React Native TypeScript MySQL

📅 Mar 2024 – June 2024

DayOff, London

- Achieved a 30% reduction in data retrieval times and enhanced real-time updates by seamlessly integrating backend services with front-end components.
- Reduced system latency and increased user satisfaction by developing efficient RESTful APIs in Python that streamlined user interactions.
- Developed RESTful API endpoints in Python for managing individual and group conversations.

Student Learning Assistant

`</>` Java TypeScript HTML/CSS MongoDB

📅 Sep 2022 – Mar 2023

Middlesex, London

- Assisted professors by streamlining administrative tasks and developing resources, enhancing overall teaching efficiency and effectiveness.
- Improved course performance by providing personalized tutoring and feedback, resulting in a 10% increase in average student grades.
- Facilitated peer learning and collaboration by organizing study groups and review sessions, leading to a 22% increase in student participation.

PROJECTS

UK Election Predictor

`</>` TypeScript AWS Lambda Sagemaker WebSocket DynamoDB

📅 barun_g/2024-Uk-Election

Data Visualizer

- Developed a website to showcase historical general election data (1918-2019) with machine learning predictions and sentiment analysis using News API.
- Built the frontend for data visualization and analysis with TypeScript, leveraging serverless technology for scalability.
- Implemented real-time updates with WebSocket and managed infrastructure using AWS SAM or Serverless framework on AWS Educate.

Price Comparison

`</>` Java EJS Hibernate SQL JavaScript HTML/CSS JUnit

📅 barun_g/price_comparison

Full Stack App

- Developed a robust backend with Java and Spring, using JSoup for web scraping and Hibernate for optimized database interactions.
- Enhanced database interactions and performance by integrating Hibernate, streamlining data storage and retrieval processes for improved system efficiency.
- Created a user-friendly frontend with HTML, CSS, JavaScript, and Node.js, and ensured high code quality through Maven, JUnit, and Mocha Chai testing.

SKILLS AND ACHIEVEMENTS

- Java, TypeScript, Python, React, JavaScript, HTML/CSS, DynamoDB, AWS, Spring boot, RESTful API, Websockets
- Postman, Git/GitHub, JUnit, Docker, VS Code, IntelliJ, SQL (MySQL), Express.js NodeJs, Bootstrap, Tailwind CSS

UX Design Research Augmented Reality(AR) Technology

`</>` Figma Miro Balsamiq

📅 February 2024

Team Leader, Middlesex

- Recognized by the professor for exceptional work on an AR UX project, achieving notable advancements in augmented reality design.

Achieved first place in Tier 3 of the British Universities' League

📅 March 2023

Badminton, England

EDUCATION

Bachelor's degree in Computer Science

`</>` First Class

📅 Sept 2022 - June 2025

Middlesex University

- Relevant Coursework included Data structures, Software engineering, Web development with Big data, Object Oriented programming, Security and Networking and application and System design group electives.
